

Rebecca T Viner

rtviner.com

Denver, CO

rtviner@gmail.com

SUMMARY

- Three years experience designing websites and emails with CSS and HTML and one year experience building mobile-first web applications with Vanilla JavaScript and React.js.
 - Six years technical writing experience including publishing a research article, developing standard operating procedures for importing E-commerce content, and providing technical support for 148+ natural foods stores.
-

PROJECTS

Quote Machine | Live: quote-machine-app.herokuapp.com | Code: github.com/rtviner/quote-machine

- I built a REST API using Express.js and MongoDB to supply random quotes for the React.js front end.

Pomodoro Timer | Live: tomatotimer-app.herokuapp.com | Code: github.com/rtviner/pomodoro-timer

- I created this time management tool using React.js, Webpack, Babel, and CSS3. The JavaScript date object and setTimeout method were used to maintain the accuracy of the interval timer throughout the day.

Exerdice | Live: rtviner.github.io/Exerdice | Code: github.com/rtviner/Exerdice

- A fitness game built with Vanilla JavaScript, HTML, and CSS3 animations in the object-oriented programming style and model view controller architectural style.
-

PROFESSIONAL EXPERIENCE

Natural Grocers | 2017 - 2018 | *Purchasing Data Integrity Specialist*

- Improved store support incident resolution time from 3 to 1.5 days by facilitating interdepartmental communications and developing a shared spreadsheet to monitor ongoing issues.
- Maintained the pricing, packaging, and availability data for 10,000+ products sold at 148+ natural food stores by comparing and updating data from the Natural Grocers' databases with supplier provided data.

Planet Cyclery | 2016 - 2017 | *Content Department Manager*

- Directed projects to improve search engine optimization and site usability by refiguring the site structure and enriching and standardizing product data with the aim of increasing website and third-party retail site sales.
- Developed protocol to add new content to the site with greater efficiency and accuracy by improving the data flow process, correcting the file formatting process, and implementing an import validation process.
- Created and deployed tri-weekly emails via MailChimp, CSS, and HTML to promote sales of selected products.

University of Colorado Colorado Springs | 2013 - 2015 | *Data Analyst and Lecturer*

- Designed, maintained, and interpreted data sets using Excel, Google Sheets, and SPSS statistics.
 - Published peer-reviewed articles that highlighted patterns and trends in human health and energy availability and provided practical solutions to improve health outcomes.
 - Enhanced 95 health science undergraduate students grasp of sports nutrition principles through lectures, interactive activities, and assessments developed from modern sports nutrition research.
-

EDUCATION

Web Development 101 | The Odin Project | 2017 - 2019

Data Visualization, FE Libraries, JavaScript Algorithms and Data Structures | freeCodeCamp | 2017 - 2019

Master of Science in Sport Nutrition | University of Colorado, Colorado Springs, CO | 2013
