Rebecca T Viner   Denver, CO   rtviner@gmail.com   240.486.6226

SUMMARY

- Two years web design experience including building email marketing templates for an E-commerce site.
- Experienced using Javascript frameworks to build mobile-first web apps.
- Responsive Web Design Certified (freeCodeCamp 2019).

PROJECTS

Brew Ratio | https://rtviner.github.io/brew-ratio/
- A web application created with ReactJS and CSS which converts desired cups of coffee into the grams of ground coffee and water required.

Exerdice | https://rtviner.github.io/Exerdice/
- Exerdice is a workout game built with Vanilla Javascript, HTML, and CSS.

Loam Seekers | https://rtviner.github.io/loam-seekers/
- Fully Responsive photo and video journal of my mountain biking adventures created with CSS and HTML.

SKILLS

Web Technologies/Frameworks:
- HTML5, CSS3, ReactJS

Scripts/UI:
- JavaScript ES6+

Web Debug Tools:
- Chrome Developer tools

Version Control:
- Git

PROFESSIONAL EXPERIENCE

Natural Grocers | 2017 - 2018 | *Purchasing Data Integrity Specialist*
- Maintained the pricing, packaging, and availability data for 10,000+ products sold at 148+ natural food stores by comparing data extracted from SAP and POS servers with supplier data and updating the database accordingly.
- Improved store support incident resolution time from 2 to 1 days by creating answer templates for common issues and developing a shared spreadsheet to keep track of ongoing issues.

Planet Cyclery | 2016 - 2017 | *Content Department Manager*
- Directed projects to improve search engine optimization and usability by updating the site structure and enriching and standardizing product data which increased website and third-party retail site sales.
- Developed protocol to import new product data into Magento with greater efficiency and accuracy by changing the file formatting process and using formulas to confirm data was imported correctly.
- Created and deployed tri-weekly emails using MailChimp, CSS, and HTML to promote sales of selected products.

University of Colorado | 2013 - 2015 | *Sports Nutrition Research Assistant and Lecturer*
- Analyzed energy intake and expenditure of 10 cyclists for a 10 month period to determine causes of lower than expected bone density and develop dietary and lifestyle guidelines to improve bone density.
- Improved 95 health sciences undergraduate students grasp of sports nutrition principles through lectures, interactive activities, and assessments that were developed from the most current sports nutrition research.
